

Core Bytes

Welcome to the Year 11 Maths, English and Science

Did you know...

We will be rewarding maths students with **Nando's** vouchers!

Did you know...

The English literature exams are all **closed book**. *Do you have quotations memorised?*

Did you know...

After the holiday we will be **14 school days** from the Biology exam!

What we've done and what's to come!

Drop Down Days

The core subjects have been supporting students through drop down days. During these interventions, targeted students are taken off timetable to work on specific aspects of their subjects in a focused environment.

- Maths is most proud of the students who worked extremely hard on the two Maths Days at Hilton Worldwide in March.
- Students participated in two English drop down days, revising the skills required to master their English language papers.
- Science students investigated different factors affecting the rate of cooling of water for the controlled assessment honing their skills of scientific enquiry.

Upcoming...

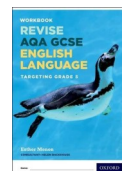

- English Language drop down day, Friday, May 12th
- English Literature exam revision day, Saturday, May 20th
- English Language mocks, Friday, April 28th
- Extended Saturday Maths sessions in May
- Maths Residential Trip after Easter for targeted students
- Additional Science focus session for targeted students Monday 10 April and Tuesday 11 April.
- Wednesday afternoon Core Science sessions for targeted students.

Make sure to check the school website for the exam dates!

Revision, revision, revision!

English

- Make sure to attend one morning intervention session from 8.15am—9.00am either on Thursday and Friday morning.
- Keep working through your English Language revision guides.
- Keep practising essay plans for 'Romeo and Juliet', 'Jekyll and Hyde' and the poetry anthology. These can be found on the AQA website.

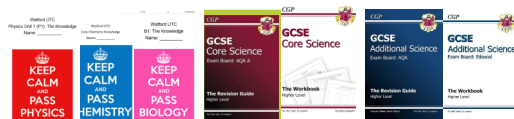

Maths

Complete **personalised booklet** from your final mocks (*login details are on the front of the booklet*). Once complete, students can use the solution passwords to access the full solution (*passwords are case sensitive*).

	Paper 1	Paper 2	Paper 3
11 Foundation	Pword084	Pword4e5	Pworda45
11 Higher	Pword3df	Pword8a6	Pworddc4

Science

Revision—remember that students can use booklets and the CGP revision guides. These also include a free online version. Use the code at the front of the revision guide to access this so students can work whilst they are travelling to school!

Students looking to achieve Bs and As should use **www.logonscience.com**. This website which tests the breadth of knowledge and really forces you to develop your understanding of exam questions.
