

### **Covid Catch Up Premium Statement**

Watford UTC received £5280 in COVID-19 catch up premium. This grant contributed towards additional staffing costs for specific timetabled catch-up sessions for E2L students and for additional staff support in core subject lessons for English, Maths and Science.

In addition, we purchased additional hardware to allow students to have access to remote and online learning materials via laptops and 4G wifi dongles.

We have measured the impact of educational attainment via end of year examinations and measuring progress towards target grades for those students benefiting from the additional support.

Paul Quinn, Acting Principal
