The WUTC BioBand team after their winning pitch at Fujitsu with Dr Joseph Reger CTO Fujitsu

Were so proud of Fabrizio, Lewis and Hamzah, who developed a Proof of Concept for a BioBand to reduce teacher stress levels and won Fujitsu's "Operation Innovation" competition. Our winning team were flown out to Munich on Fujitsu's private jet for three days at the Fujitsu World Forum!

We held our first Student Reflection Surgery of the year at the beginning of the month. We hope you found the process both enlightening and constructive.

The next will be held in February and will allow parents to speak with subject teachers as we head toward the summer exam season.

Brighthouse Employability

Ideas to Apps

Salis' Cake Decorating Masterclass

We've had a few fantastic Masterclasses this month:

Our partnership with Brighthouse continued with their employability workshop for Year 12s.

Year 12 Student and Cake Entrepreneur, Salis, gave a Cake Decorating Masterclass to Year 10 THEM.

Dr James Ohene-Djan from Goldsmiths University of London delivered "Ideas to Apps" Workshop to Year 12 IT and Computing Students.
