Half Term

Huge congratulations to this years Rotary Tech Team (below) who were awarded 2nd place at the 2017 tournament held at Bushey Academy: **Charlie King, Aaron Masters, Anna Fitz and Sayeed Alam** had to create a mechanism to travel down a tunnel collecting debris, once at the end of the tunnel the mechanism had to return to the start bringing all the debris with it leaving the tunnel clear.

This half term, Year 12 Business students took a bespoke events masterclass at the illustrious Fortnum & Mason Piccadilly Store (below) and selected students from each of the Meller Educational Trust Schools were invited to tour the offices of the Lord Mayor of London, Andrew Parmley (left)

Operation Innovation 2!

After Team BioBand's huge success, Jack Gill, Sam Probert, Cian O'Sullivan and Josh Keenan are preparing for **Operation Innovation 2 - the KYOCERA challenge**. At Kyocera HQ in Reading they will learn new commercial app development and coding skills as part of the nationwide competition to develop the next "killer" Document Solutions App. Good luck guys!

This week, students have given feedback on the current Decision Making course delivered during Tutor Time in two focus groups with Melissa. Their comments and ideas will be considered in developing the way this content is delivered school-wide.
